DENVER, April 30, 2020 (GLOBE NEWSWIRE) -- First Western Financial, Inc., (“First Western” or the “Company”) (NASDAQ: MYFW), today reported financial results for the first quarter ended March 31, 2020.

Net income available to common shareholders was \$1.3 million, or \$0.17 per diluted share, for the first quarter of 2020. This compares to \$2.6 million, or \$0.32 per diluted share, for the fourth quarter of 2019, and \$1.6 million, or \$0.21 per diluted share, for the first quarter of 2019.

Financial results for the first quarter of 2020 include a \$0.6 million loss on intangibles held for sale related to the Company’s Capital Management segment, which negatively impacted earnings per diluted share by 5 cents. For the first quarter of 2020, adjusted net income, available to common shareholders, excluding the held for sale loss, was \$1.8 million, or \$0.22 per diluted share.

Scott C. Wylie, CEO of First Western, commented, “During January and February, we experienced positive trends throughout the business including strong growth in loans and deposits and an expansion in our net interest margin. We were also very pleased to sign a branch purchase and assumption agreement with Simmons Bank in February that will increase our presence in Denver, add valuable scale and banking talent, and we believe will be highly accretive to earnings.”

“As the COVID-19 pandemic accelerated in March, our focus turned to protecting the health and safety of our associates and ensuring that we continued to support the financial needs of our clients and the communities we serve. We have implemented a number of programs to help our clients manage through this crisis, including participating in the Small Business Association’s Paycheck Protection Program (“PPP”). As of April 24th, we processed 347 applications for a total of \$162.1 million funded through the PPP. While our top priority has been serving our existing clients, we have also used the PPP to establish many new commercial client relationships with businesses that were frustrated by the lack of response from their prior banks.”

“We believe we are well positioned from a capital and liquidity standpoint to continue supporting our clients and communities throughout the duration of this crisis. Now more than ever, we have the opportunity to demonstrate the compelling value proposition of the First Western model, help our clients navigate through a time of unprecedented challenges, and attract new commercial and wealth management clients to our franchise,” said Mr. Wylie.

Operating Results for the First Quarter 2020

Revenue

Gross revenue ⁽¹⁾ was \$16.7 million for the first quarter of 2020, compared to \$16.2 million for the fourth quarter of 2019. The increase in revenue was primarily driven by a \$0.7 million increase in net interest income.

Relative to the first quarter of 2019, gross revenue increased \$1.8 million from \$14.9 million. The increase was primarily due to growth in net interest income and net gain on mortgage loans resulting from increased mortgage activity.

⁽¹⁾ Represents a Non-GAAP financial measure. See "Reconciliations of Non-GAAP Measures" for a reconciliation of our Non-GAAP measures to the most directly comparable GAAP financial measure.

Net Interest Income

Net interest income for the first quarter of 2020 was \$8.9 million, an increase of 9.0% from \$8.2 million in the fourth quarter of 2019. The increase in net interest income was primarily attributable to a reduction in interest expense resulting from a 20 basis point decline in the cost of funds.

Relative to the first quarter of 2019, net interest income increased 12.0% from \$8.0 million. The year-over-year increase in net interest income was due primarily to growth in average loans and lower cost of funds.

Net Interest Margin

Net interest margin for the first quarter of 2020 increased to 3.14% from 2.91% in the fourth quarter of 2019. The increase was primarily driven by a 20 basis point decline in the cost of funds.

Relative to the first quarter of 2019, the net interest margin increased from 3.03%, primarily due to a 29 basis point decline in cost of funds.

Non-interest Income

Non-interest income for the first quarter of 2020 was \$7.8 million, a decrease of 5.6% from \$8.2 million in the fourth quarter of 2019. The decrease was primarily attributable to a decrease in insurance revenues.

While our net gains on mortgage loans remained consistent with the fourth quarter, the uncertainty of COVID-19's impact on the economy caused major disruptions in the mortgage market. Sharp Fed Funds and US Treasury rate reductions, as well as capacity, liquidity and delinquency concerns in the mortgage industry caused the market value of loans and loan servicing to decline rapidly and significantly relative to mortgage hedges, resulting in approximately \$4 million of lost value during the month of March.

Relative to the first quarter of 2019, non-interest income increased 11.3% from \$7.0 million. The increase was primarily attributable to higher net gains

on mortgage loans as a result of a higher volume of mortgages.

Non-interest Expense

Non-interest expense for the first quarter of 2020 was \$14.6 million, an increase of 12.0% from \$13.1 million for the fourth quarter of 2019. Non-interest expense for the first quarter of 2020 included a \$0.6 million loss on intangibles held for sale related to the Capital Management segment. Excluding the loss on intangibles held for sale, the increase was driven by higher professional costs primarily associated with the pending branch acquisition along with an increase in salaries and employee benefits expense resulting from higher head count and seasonality in payroll taxes.

Non-interest expense increased 16.2% from \$12.6 million in the first quarter of 2019. The increase was primarily due to higher salaries and employee benefits expense reflecting the growth of the organization over the past year and improved performance.

The Company's efficiency ratio was 84.4% in the first quarter of 2020, compared with 80.5% in the fourth quarter of 2019 and 83.2% in the first quarter of 2019. The efficiency ratio was negatively impacted during the first quarter 2020 by various acquisition and disposition related expenses. Management expects a return to the positive trend it had previously shown in the Company's efficiency ratio.

Income Taxes

The Company recorded income tax expense of \$0.4 million for the first quarter of 2020, representing an effective tax rate of 20.8%, compared to 11.0% for the fourth quarter of 2019. The lower effective tax rate in the fourth quarter of 2019 was primarily attributable to tax-planning strategies driven by the impact of research and development tax credits.

Loan Portfolio

Total gross loans including mortgage loans held for sale were \$1.11 billion at March 31, 2020, an increase of \$61.8 million from the end of the prior quarter, and an increase of \$157.1 million from March 31, 2019.

Gross loans, excluding mortgage loans held for sale, totaled \$1.04 billion at March 31, 2020, an annualized increase of 18.4% from \$998.0 million at December 31, 2019, and an increase of 12.1% from \$931.2 million at March 31, 2019. The increase in gross loans from December 31, 2019 was primarily due to growth in the 1-4 family residential, commercial and industrial, and commercial real estate portfolios.

Deposits

Total deposits were \$1.18 billion at March 31, 2020, compared to \$1.09 billion at December 31, 2019, and \$978.1 million at March 31, 2019. The increase in total deposits from December 31, 2019 was primarily due to an increase in money market, time and non-interest bearing deposits.

Average total deposits for the first quarter of 2020 increased \$103.6 million, or 10.6%, from the first quarter of 2019.

Assets Under Management

Total assets under management decreased by \$551.2 million during the first quarter to \$5.64 billion at March 31, 2020, compared to \$6.19 billion at December 31, 2019, and \$5.78 billion at March 31, 2019. The decrease was primarily attributable to market losses resulting from the market volatility related to the global pandemic.

Credit Quality

Non-performing assets totaled \$11.1 million, or 0.82% of total assets, at March 31, 2020, a decline from \$12.9 million, or 1.03% of total assets, at December 31, 2019 due primarily to pay downs on non-performing loans.

The Company recorded a provision for loan losses of \$0.4 million in the first quarter of 2020, primarily reflecting the strong growth in the loan portfolio. Changes within the provision during the first quarter 2020 also included a decrease in the specific reserve resulting from pay downs on an impaired loan and an increase in the unallocated reserve based on management's assumptions related to the impact of the COVID-19 pandemic given data that was currently available, as of the date of analysis.

As a result of the COVID-19 pandemic, a loan modification program was designed and implemented to assist our clients experiencing financial stress resulting from the economic impacts caused by the global pandemic. The program includes loan extensions, temporary payment moratoriums, and financial covenant waivers for commercial and consumer borrowers impacted by the pandemic who have a pass risk rating and have not been delinquent over 30 days on payments in the last two years. These programs were implemented towards the end of the first quarter of 2020. No clients participated in the loan modification program in the first quarter, however as April 24th, the Company entered into modification agreements with 32 clients across multiple industries in the amount of \$55.8 million.

The Company will continue to closely monitor the loan portfolio, understanding the stress of our borrowers as well as the on-going impact of COVID-19, as it relates to the allowance for loan loss and credit quality metrics.

During the first quarter of 2020, the Company repurchased 22,679 shares of its common stock at an average price of \$16.50 under its stock repurchase program, which authorized the repurchase of up to 300,000 shares of its common stock.
